REMEMBER YOUR BUSINESS CARDS AND BRING A FRIEND!

Some people seem like they do it all. They entertain, travel, teach classes, plan events, and go to every one of their children or grandchildren's sporting events and activities. It seems as though they do it all with so little effort. Makes some of us wonder what's the difference between those people and the rest of us that view their lives in bewilderment? The key is that they are focused on purpose and meaning in their lives.

Julie will teach you ideas that you can implement from the moment you leave the conference and parlay them into your work and home life.
